
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended September 29, 2007

Commission file number: 1-5256

V. F. CORPORATION

(Exact name of registrant as specified in its charter)

Pennsylvania
(State or other jurisdiction of
incorporation or organization)

23-1180120
(I.R.S. employer
identification number)

105 Corporate Center Boulevard
Greensboro, North Carolina 27408
(Address of principal executive offices)

(336) 424-6000
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant is a large accelerated filer, accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Securities and Exchange Act of 1934. (check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Securities and Exchange Act of 1934).
YES NO

On October 27, 2007, there were 110,045,706 shares of the registrant's Common Stock outstanding.

VF CORPORATION

Notes to Consolidated Financial Statements
(Unaudited)

Note A – Basis of Presentation

VF Corporation and its consolidated subsidiaries (“VF”) operate and report using a 52/53 week fiscal year ending on the Saturday closest to December 31 of each year. Similarly, the fiscal third quarter ends on the Saturday closest to September 30. For presentation purposes herein, all references to periods ended September 2007, December 2006 and September 2006 relate to the fiscal periods ended on September 29, 2007, December 30, 2006 and September 30, 2006, respectively.

The accompanying unaudited consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X and do not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. Similarly, the December 2006 consolidated balance sheet was derived from audited financial statements but does not include all disclosures required by generally accepted accounting principles. In the opinion of management, the accompanying unaudited consolidated financial statements contain all normal and recurring adjustments necessary to make a fair statement of the consolidated financial position, results of operations and cash flows of VF for the interim periods presented. Operating results for the three months and nine months ended September 2007 are not necessarily indicative of results that may be expected for any other interim period or for the year ending December 29, 2007. For further information, refer to the consolidated financial statements and notes included in VF’s Annual Report on Form 10-K for the year ended December 2006 (“2006 Form 10-K”).

In December 2006, management and the Board of Directors decided to dispose of VF’s intimate apparel business consisting of its domestic and international women’s intimate apparel business units. Accordingly, the consolidated financial statements have been reclassified to present the intimate apparel business as discontinued operations for all periods. General interest expense has not been allocated to the discontinued operations. Amounts presented herein, unless otherwise stated, relate to continuing operations. See Note D.

Other prior year amounts, none of which are material, have been reclassified to conform with the 2007 presentation.

Note B — Changes in Accounting Policies

Defined benefit pension plans – In September 2006, the Financial Accounting Standards Board (“FASB”) issued FASB Statement No. 158, *Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans* (“Statement 158”). Statement 158, effective as of December 2006, requires that the funded status of a defined benefit plan, measured as the difference between the fair value of plan assets and projected benefit obligations, be recorded in the balance sheet. Statement 158 also requires that gains and losses for differences between actuarial assumptions and actual results and that unrecognized prior service costs be recorded as components of accumulated other comprehensive income. In accordance with Statement 158, financial statements prior to December 2006 were not restated.

Under the prior accounting rules, VF had been using a September measurement date for valuation of its defined benefit pension plans’ assets and projected benefit obligations for its December year-end balance sheet. Under Statement 158, VF was required to change its September measurement date to a December year-end measurement date by no later than December 2008. VF elected, effective at the beginning of 2007,

[Table of Contents](#)

to change its plans' measurement date to December. In accordance with Statement 158, pension expense of 3.8 million, net of \$2.4 million income tax effect, for the period October to December 2006 (determined using the September 2006 measurement date) was recorded as a charge to Retained Earnings at the beginning of 2007. Plan assets, projected benefit obligations, adjustments to other comprehensive income, and expense in the 2007 financial statements were determined using the beginning of 2007 measurement date. See Note H.

Accrued income taxes – In June 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109* (“FIN 48”), which clarifies the accounting for uncertainty in income tax positions. FIN 48 prescribes the recognition threshold an income tax provision is required to meet before being recorded in the financial statements and provides guidance on classification and disclosures of tax positions. VF adopted FIN 48 at the beginning of 2007 by recording a cumulative effect charge of \$2.3 million, net of \$0.2 million income tax effect, to Retained Earnings in accordance with the provisions of FIN 48. See Note L.

Note C – Acquisitions

On January 26, 2007, VF acquired Eagle Creek, Inc. (“Eagle Creek”), maker of *Eagle Creek*® brand adventure travel gear that includes accessories, luggage and daypacks. Eagle Creek, with revenues of \$30 million in its latest fiscal year, operates as part of the Outdoor Coalition. On February 28, 2007, VF acquired substantially all the operating assets of Majestic Athletic, Inc. (“Majestic”) and related companies. Majestic currently holds on-field uniform rights for all 30 major league baseball teams, including exclusively supplying each team with on-field *MLB Authentic Collection*™ outerwear, batting practice jerseys, T-shirts, shorts and fleece. Majestic markets baseball-related consumer apparel to numerous wholesale accounts. Majestic, with 2006 revenues of \$179 million, operates as part of the Imagewear Coalition's Activewear division. VF also acquired the specific brand-related assets of a former licensee who had rights to market VF's *The North Face*® brand in China and Nepal (“The North Face – China”). Because the licensing arrangement represented an arms-length contract, no gain or loss was recognized at the acquisition date.

On August 27, 2007, VF acquired Lucy activewear, inc. (“Lucy activewear”), a rapidly growing chain of retail stores marketing *Lucy*® brand women's activewear. On August 31, 2007, VF acquired Seven For All Mankind, LLC (“Seven For All Mankind”), marketer of the rapidly growing *7 For All Mankind*® brand of women's and men's premium denim jeanswear and related apparel products in the United States and Europe. The Lucy activewear business, with forecasted annual revenues of approximately \$57 million, and the Seven For All Mankind business, with forecasted annual revenues of approximately \$300 million, together formed the foundation for a new lifestyle-based coalition called Contemporary Brands.

The Eagle Creek, Majestic, Lucy activewear and Seven For All Mankind acquisitions are consistent with VF's goal of acquiring strong lifestyle brands that have high growth potential within their target markets. The acquisition of The North Face — China gives VF control of one of its leading brands in one of the fastest growing markets in the world. These acquisitions are collectively referred to as the “2007 Acquisitions.”

The total cost of the 2007 Acquisitions was \$1,074.7 million, including the assumption of \$11.5 million of debt. The most significant acquisition, Seven For All Mankind, had a cost of \$779.0 million. Management, with assistance from independent valuation specialists, has allocated the purchase price of the 2007 Acquisitions to acquired tangible and intangible assets, and assumed liabilities, based on their respective fair values. The purchase price allocations for acquisitions completed during the first half of the year are substantially complete, except for income tax matters. For acquisitions completed during the third quarter, the valuations of intangible assets, income taxes and certain other items are preliminary. Management expects to complete the purchase price allocations during the fourth quarter of 2007.

Table of Contents

Except for Majestic, the purchase price of each acquisition exceeded the fair value of the net tangible and intangible assets acquired. The excess was recorded as Goodwill, which was attributed to expected growth rates and profitability of the acquired businesses, the ability to expand the brands within existing markets or to new markets and expected synergies with existing VF operations. In the Majestic acquisition, the fair value of the net assets acquired exceeded the purchase price by \$14.0 million. Since there is contingent consideration based on growth in revenues that may result in the recognition of additional purchase price at the end of 2007, 2008 and 2009, the maximum amount of contingent consideration was recorded as a deferred credit of \$1.5 million in Accrued Liabilities and \$8.5 million in Other Liabilities. The remaining \$4.0 million excess fair value was applied to reduce noncurrent assets on a pro rata basis. When the contingent consideration is known, any amount of payments less than the \$10.0 million maximum will be recognized as a pro rata reduction of amounts initially assigned to noncurrent assets. Contingent consideration for Eagle Creek is payable at the end of 2008 and 2009 based on a measure of profitability over those periods. Any contingent consideration earned will be recorded as additional Goodwill.

The *Eagle Creek*[®], *Majestic*[®], *lucy*[®] and *7 For All Mankind*[®] trademarks and tradenames, which management believes have indefinite lives, have been valued at \$408.4 million. Amounts assigned to amortizable intangible assets for the 2007 Acquisitions totaled \$273.3 million and consisted primarily of \$223.5 million of customer relationships and \$49.5 million of licensing contracts. Customer relationships are being amortized using accelerated methods over their estimated weighted average useful lives of 19 years, and licensing contracts are being amortized using straight-line and accelerated methods over their estimated weighted average useful lives of 18 years.

Operating results of the 2007 Acquisitions have been included in the consolidated financial statements since their respective acquisition dates.

The following pro forma results of operations assume that the Seven for All Mankind and Majestic acquisitions had occurred at the beginning of 2006. These pro forma amounts should not be relied on as an indication of the results of operations that VF would have achieved had the acquisitions taken place at a different date or of future results that VF might achieve. Pro forma operating results for the other 2007 acquisitions and for the one acquisition in 2006, for periods prior to their respective dates of acquisition, are not provided because these acquisitions, in the aggregate, are not material to VF's results of operations.

Note D – Sale of Intimate Apparel Business and Sale of *H.L.S.*[®] Brand

Sale of Intimate Apparel Business Classified as Discontinued Operations

In December 2006, management and the Board of Directors decided to exit the women's intimate apparel business. VF entered into a definitive agreement on January 22, 2007 to sell all of its domestic and international women's intimate apparel business units (formerly referred to as the Intimate Apparel Coalition, a reportable business segment). The transaction is consistent with VF's stated objective of

[Table of Contents](#)

focusing on lifestyle businesses having higher growth and profit potential. Accordingly, the financial position, results of operations and cash flows of the intimate apparel business are separately presented as discontinued operations for all periods in accordance with FASB Statement No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* ("Statement 144").

VF recorded a charge of \$42.2 million in 2006, computed in accordance with Statement 144, for the difference between the recorded book value of the intimate apparel business and the expected net sales proceeds. The recorded book value included \$32.0 million of foreign currency translation losses, net of income tax benefit, deferred in Accumulated Other Comprehensive Income (Loss). The impact of the \$42.2 million charge and a partial pension plan curtailment charge of \$5.6 million, less income tax benefit of \$10.9 million, resulted in an estimated loss on disposal of \$36.8 million (\$0.33 per share) in 2006. Included in the determination of the \$42.2 million impairment charge was a \$17.2 million unrealized gain on an investment in marketable securities of one of our intimate apparel suppliers.

The sale closed on April 1, 2007, with net sales proceeds received in the second quarter of \$348.7 million plus \$28.8 million related to the business unit's Cash and Equivalents. The transaction excluded the marketable securities discussed above. Because the anticipated gain on these securities will not be recognized until sold, the loss on disposal was increased by the amount of the unrealized gain included in the recorded 2006 impairment. Accordingly, in the second quarter, the loss on disposal was increased by \$24.3 million (\$0.21 per share) consisting of (i) a \$17.2 million increase to the loss related to the unsold marketable securities, (ii) income tax adjustments of the purchase price allocation and (iii) final determination of the sales price. Since the marketable securities remain unsold at the end of the third quarter, they continue to be classified as available for sale and recorded at market value, with their unrealized appreciation of \$10.5 million recorded in Accumulated Other Comprehensive Income. Future changes to the loss on disposal may result from the sale of the marketable securities and the impact, if any, of settling remaining liabilities, including those related to income taxes. All adjustments to the loss on disposal will be recorded when realized.

Summarized operating results for the discontinued intimate apparel business are as follows:

Sale of H.I.S.[®] Brand

On June 29, 2007, VF sold H.I.S.[®] trademarks and related intellectual property for \$11.4 million. H.I.S.[®] is a female jeans and casual apparel brand marketed primarily in Germany. Remaining inventories and other operating assets of the H.I.S.[®] brand (which are not material) are expected to be liquidated through the end of the year. Net foreign currency translation gains totaling \$6.0 million on the H.I.S.[®] net operating assets, previously deferred in Accumulated Other Comprehensive Income, are being recognized in the Consolidated Statement of Income as the sale and liquidation proceeds are realized. The sale proceeds and recognition of the deferred foreign currency translation gains, less employee termination and other exit costs, resulted in a \$0.5 million gain in the third quarter and an \$8.0 million gain in the nine months ended September 2007, which was recorded as \$2.4 million of additional expense in Cost of Goods Sold and a reduction of \$10.4 million in Marketing, Administrative and General Expenses. Revenues of the H.I.S.[®] brand totaled \$21 million in the nine months of 2007 and \$34 million and \$45 million annually in 2006 and 2005, respectively.

Note G — Debt

Short-term Borrowings

(In thousands)	September 2007	December 2006	September 2006
Bridge loan facility	\$ 350,000	\$ —	\$ —
International bank credit agreement:			
Revolving credit (euro denominated)	—	13,141	19,182
Term loan (euro denominated)	—	26,282	44,758
Commercial paper	667,688	—	190,000
Other	35,355	49,044	48,701
	<u>1,053,043</u>	<u>88,467</u>	<u>302,641</u>
Less refinancing of short-term obligations	<u>592,000</u>	<u>—</u>	<u>—</u>
Short-term borrowings	<u>\$ 461,043</u>	<u>\$ 88,467</u>	<u>\$ 302,641</u>

On August 21, 2007, VF entered into a \$400.0 million bridge loan facility with two banks. VF borrowed \$350.0 million under the bridge loan facility to reduce commercial paper borrowings that had been used to fund the Seven For All Mankind and Lucy activewear acquisitions.

On October 15, 2007, VF issued \$600.0 million of senior unsecured long-term notes. See Note O. Proceeds of \$592.0 million were used to repay the then-outstanding \$250.0 million balance of the bridge loan facility, with the remainder used to repay commercial paper borrowings. Accordingly, \$592.0 million of Short-term Borrowings was reclassified as Long-term Debt. The bridge loan facility was then cancelled.

Long-term Debt

At September 2007, there was \$112.7 million outstanding under the revolving credit portion of the international bank credit agreement. Of this amount, \$49.3 million was classified as Long-term Debt because VF had the ability and intent to retain that amount as outstanding for the next 12 months and \$63.4 million was classified as Current Portion of Long-term Debt, considering its anticipated payment within the next twelve months. This international bank credit agreement was replaced in October 2007 with a facility extending through 2012. See Note O.

Note H - Pension Plans

As discussed in Note B, VF adopted the balance sheet provisions of Statement 158 at the end of 2006 but continued to use a September 2006 measurement date, as permitted by the prior accounting rules. Effective at the beginning of 2007, VF elected to early adopt the measurement date provisions of Statement 158 by changing its annual measurement date from September to December. Accordingly, VF, along with its independent actuary, prepared a valuation of its pension plans' assets and benefit obligations as of the beginning of 2007. The following summarizes the funded status of the plans as measured at the beginning of 2007, compared with the funded status as reported in the December 2006 balance sheet (based on the September 30, 2006 valuation):

[Table of Contents](#)

(Dollars in thousands)	Beginning of 2007	December 2006
Accumulated benefit obligations	<u>\$ 1,081,803</u>	<u>\$ 1,061,790</u>
Fair value of plan assets	\$ 1,023,556	\$ 973,733
Projected benefit obligations	<u>1,139,941</u>	<u>1,120,523</u>
Funded status	<u>\$ (116,385)</u>	<u>\$ (146,790)</u>
Assumptions used to determine benefit obligations:		
Discount rate	5.95%	6.00%
Rate of compensation increase	4.00%	4.00%

Amounts included in the Consolidated Balance Sheets for the defined benefit plans are summarized as follows:

(In thousands)	September 2007	December 2006
Current liabilities	\$ (3,300)	\$ (3,000)
Noncurrent liabilities	(113,296)	(143,790)
Accumulated other comprehensive (income) loss:		
Deferred actuarial loss	155,610	195,310
Deferred prior service cost	<u>17,182</u>	<u>20,070</u>
	<u>\$ 56,196</u>	<u>\$ 68,590</u>

VF's net periodic pension cost contained the following components:

(In thousands)	Three Months Ended September		Nine Months Ended September	
	2007	2006	2007	2006
Service cost — benefits earned during the year	\$ 5,022	\$ 5,507	\$ 16,642	\$ 16,521
Interest cost on projected benefit obligations	16,914	16,575	50,742	49,725
Expected return on plan assets	(20,652)	(18,188)	(61,956)	(54,564)
Amortization of:				
Prior service cost	672	870	2,016	2,610
Actuarial loss	<u>1,323</u>	<u>6,855</u>	<u>3,969</u>	<u>20,565</u>
Net periodic pension cost	3,279	11,619	11,413	34,857
Amount allocable to discontinued operations	—	(3,635)	(1,612)	(10,905)
Net periodic pension cost — continuing operations	<u>\$ 3,279</u>	<u>\$ 7,984</u>	<u>\$ 9,801</u>	<u>\$ 23,952</u>

[Table of Contents](#)

During the nine months of 2007, VF made contributions totaling \$4.8 million to fund benefit payments for the Supplemental Executive Retirement Plan (“SERP”). VF currently anticipates making an additional \$0.9 million of contributions to fund benefit payments for the SERP during the remainder of 2007. VF is not required under applicable regulations, and does not currently intend, to make a contribution to the qualified pension plan during 2007.

Note I — Business Segment Information

VF’s businesses are grouped into five product categories, and by brands within those product categories, for management and internal financial reporting purposes. These groupings of businesses within VF are referred to as “coalitions.” These coalitions represent VF’s reportable business segments. Financial information for VF’s reportable segments is presented below:

(In thousands)	Three Months Ended September		Nine Months Ended September	
	2007	2006	2007	2006
Coalition revenues:				
Jeanswear	\$ 758,485	\$ 738,171	\$ 2,174,691	\$ 2,080,161
Outdoor	806,113	658,987	1,791,611	1,415,679
Imagewear	267,470	215,743	711,046	598,204
Sportswear	172,964	183,995	475,055	488,226
Contemporary Brands	32,667	—	32,667	—
Other	35,460	13,202	79,101	34,763
Total coalition revenues	\$ 2,073,159	\$ 1,810,098	\$ 5,264,171	\$ 4,617,033
Coalition profit:				
Jeanswear	\$ 135,727	\$ 117,766	\$ 366,617	\$ 329,639
Outdoor	161,305	139,606	298,012	232,553
Imagewear	41,553	33,734	98,059	92,892
Sportswear	17,110	24,919	45,918	63,257
Contemporary Brands	4,854	—	4,854	—
Other	530	405	2,988	(522)
Total coalition profit	361,079	316,430	816,448	717,819
Corporate and other expenses	(28,206)	(26,737)	(98,039)	(93,653)
Interest, net	(17,147)	(14,396)	(38,879)	(38,221)
Income from continuing operations before income taxes	\$ 315,726	\$ 275,297	\$ 679,530	\$ 585,945

Since their dates of acquisition, operating results of Eagle Creek and The North Face — China are included in the Outdoor Coalition, results of Majestic are included in the Imagewear Coalition and results of Seven For All Mankind and Lucy activewear are included in the newly-formed Contemporary Brands Coalition.

Note J — Capital and Comprehensive Income (Loss)

Common stock outstanding is net of shares held in treasury, and in substance retired, of 10,042,686 at September 2007, 5,775,810 at December 2006 and 5,775,810 at September 2006. In addition, 279,198

[Table of Contents](#)

shares of VF Common Stock at September 2007, 261,458 shares at December 2006 and 265,863 shares at September 2006 were held in trust for deferred compensation plans. These shares are treated for financial accounting purposes as treasury stock at each of the respective dates.

There are 25,000,000 authorized shares of Preferred Stock, \$1 par value. Of these shares, 2,000,000 were designated as Series A, of which none have been issued.

Activity for 2007 in the Common Stock, Additional Paid-in Capital and Retained Earnings accounts is summarized as follows:

(In thousands)	Common Stock	Additional Paid-in Capital	Retained Earnings
Balance, December 2006	\$ 112,185	\$ 1,469,764	\$ 1,806,875
Net income	—	—	427,213
Cash dividends on Common Stock	—	—	(182,831)
Purchase of treasury stock	(4,116)	—	(345,884)
Changes in accounting policies (Note B)	—	—	(6,085)
Stock compensation plans, net	<u>1,668</u>	<u>131,944</u>	<u>(13,306)</u>
Balance, September 2007	<u>\$ 109,737</u>	<u>\$ 1,601,708</u>	<u>\$ 1,685,982</u>

Other comprehensive income consists of changes in assets and liabilities that are not included in Net Income under generally accepted accounting principles but are instead reported within a separate component of Common Stockholders' Equity. VF's comprehensive income was as follows:

[Table of Contents](#)

(In thousands)	Three Months Ended September		Nine Months Ended September	
	2007	2006	2007	2006
Net income	\$ 207,207	\$ 197,707	\$ 427,213	\$ 424,924
Other comprehensive income (loss):				
Foreign currency translation

Balance, September 2007	\$ 72,929	\$ (106,578)	\$ (6,475)	\$ 10,490	\$ (29,634)

* Included transfers of \$30.8 million to Consolidated Statement of Income — Discontinued Operations on sale of intimate apparel business and of \$3.7 million to Marketing, Administrative and General on sale of H.I.S business. See Note D.

Note K – Stock-based Compensation

During the first quarter of 2007, VF granted options for 1,708,150 shares of Common Stock at an exercise price of \$76.10, equal to the market value of VF Common Stock on the date of grant. The options vest in equal annual installments over a three year period. The fair value of these options was estimated using a lattice valuation model for employee groups having similar exercise behaviors, with the following assumptions: expected volatility ranging from 22% to 30%, with a weighted average of 24%; expected term of 4.7 to 7.3 years; expected dividend yield of 3.2%; and risk-free interest rate ranging from 5.2% at six months to 4.8% at 10 years. The resulting weighted average fair value of these options at the date of grant was \$16.80 per option.

Also during the first quarter of 2007, VF granted 238,680 performance-based restricted stock units. Participants are eligible to receive shares of VF Common Stock at the end of a three year performance period. The actual number of shares that will be earned, if any, will be based on VF's performance over that period. The grant date fair value of the restricted stock units was \$77.00 per unit.

Note L – Income Taxes

The effective income tax rate was 33.9% for the first nine months of 2007 and 31.2% for the full year 2006. The prior year rate included the favorable impact from tax audit settlements and utilization of accumulated net operating losses in foreign jurisdictions.

VF files a consolidated U.S. federal income tax return, as well as separate and combined income tax returns in numerous state and foreign jurisdictions. With limited exceptions, VF is not subject to examination by tax authorities for years prior to 2001. In the United States, Internal Revenue Service ("IRS") examinations for tax years 1995 through 1999 are settled, the statutes of limitations have expired for tax years 2000 and 2001, and tax years 2002 and 2003 are in the appeals process with the IRS. VF is under examination by the U.K. Inland Revenue for tax years 2001 through 2004, and settlement discussions are underway. Tax years 1998 to 2002 are under examination by the State of North Carolina, and tax years 2003 to 2005 are under examination by the State of Alabama.

As discussed in Note B, VF adopted FIN 48 effective at the beginning of 2007. In accordance with the new rules, VF recognized (i) a decrease of \$0.5 million in the liability for unrecognized income tax benefits, (ii) a charge of \$2.3 million, net of a \$0.2 million income tax effect, to Retained Earnings and (iii) a reduction of \$2.8 million of Goodwill. As of the beginning of 2007, VF had recognized total liabilities of \$113.0 million for unrecognized income tax benefits, which included \$11.6 million of interest (net of tax benefit). The total amount of unrecognized tax benefits that, if recognized, would favorably affect income tax expense in future periods was \$72.0 million, which included interest of \$9.6 million (net of tax benefit).

During the first quarter of 2007, the amount of unrecognized income tax benefits was decreased by \$6.2 million due to a favorable audit outcome on certain matters outside of the United States related to an acquired business for years prior to its acquisition by VF. Accordingly, the income tax benefit associated with the decrease in the unrecognized tax benefit was recorded as a reduction of Goodwill associated with the acquisition. Similarly during the second quarter of 2007, the amount of unrecognized tax benefits was reduced by \$1.8 million, with a corresponding reduction in deferred income tax assets, due to settlement of a tax audit. Neither of these reductions affected Net Income. During the remainder of 2007, management believes that it is reasonably possible that the amount of unrecognized income tax benefits may decrease by an additional \$13 million, which includes \$10 million that would reduce income tax expense, due primarily to settlement of tax audits and expiration of statutes of limitations.

[Table of Contents](#)**Note M – Earnings Per Share**

Earnings per share were computed as follows:

(In thousands, except per share amounts)	Three Months Ended September		Nine Months Ended September	
	2007	2006	2007	2006
Basic earnings per share:

Stock options and other	<u>2,753</u>	<u>2,260</u>	<u>2,879</u>	<u>1,833</u>
Weighted average Common Stock and dilutive securities outstanding	<u>112,424</u>	<u>113,062</u>	<u>113,568</u>	<u>112,649</u>
Diluted earnings per share from continuing operations	<u>\$ 1.86</u>	<u>\$ 1.64</u>	<u>\$ 3.96</u>	<u>\$ 3.49</u>

Earnings per share for Discontinued Operations and Net Income were computed using the same weighted average shares described above.

Note N – Recently Issued Accounting Standards

In September 2006, the FASB issued FASB Statement No. 157, *Fair Value Measurements* (“Statement 157”), which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Statement 157 does not require any new fair value measurements. The provisions of Statement 157 are effective for fiscal years beginning after November 15, 2007. VF is currently evaluating the impact of adopting Statement 157.

In February 2007, the FASB issued FASB Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities – Including an amendment of FASB Statement No. 115* (“Statement 159”). This Statement permits entities to choose to measure many financial instruments and certain other items at fair value. The Statement is effective for fiscal years beginning after November 15, 2007. VF is currently evaluating the impact of adopting Statement 159.

Note O – Subsequent Events

In October 2007, the VF Board of Directors declared a quarterly cash dividend of \$0.58 per share, an increase of \$0.03 per share. The dividend is payable on December 20, 2007 to shareholders of record as of the close of business on December 10, 2007.

On October 15, 2007, VF issued \$250.0 million of 5.95% senior notes due in 2017 and \$350.0 million of 6.45% senior notes due in 2037. The notes are unsecured obligations that rank equally with all existing and future unsecured and unsubordinated indebtedness. Net proceeds of \$592.0 million were used to repay the then-outstanding \$250.0 million balance of the bridge loan facility, with the remainder used to repay commercial paper borrowings.

On October 15, 2007, VF entered into a five year \$1.0 billion senior unsecured committed revolving bank credit facility. Terms and conditions of this credit facility are substantially the same as the former \$750.0 million revolving credit facility, which it replaced. (See Form 8-K filed with the Securities and Exchange Commission on October 18, 2007.) Also on October 26, 2007, VF entered into a five year €250.0 million (\$357.1 million U.S. dollar equivalent) senior unsecured committed international revolving bank credit facility. Terms and conditions of this international credit facility are substantially the same as the former international revolving credit facility, which it replaced. (See Form 8-K filed with the Securities and Exchange Commission on October 29, 2007.)

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

Overview

Highlights of the third quarter of 2007 included:

- Revenues, income and earnings per share from continuing operations for the third quarter were each at record levels.
- Revenues increased 15% over the prior year quarter to \$2,073.2 million, driven by higher revenues across the Outdoor, Jeanswear and Imagewear business coalitions, with a 9% increase coming from organic growth and 6% from acquisitions.
- Income from continuing operations increased 13% to \$209.3 million, compared with \$186.0 million in the prior year quarter, resulting from the strong performance of our Outdoor, Jeanswear and Imagewear Coalitions. Earnings per share from continuing operations also increased 13% to \$1.86. (All per share amounts are presented on a diluted basis.)
- On August 27, 2007, VF acquired Lucy activewear, inc. (“Lucy activewear”), a rapidly growing chain of retail stores marketing *lucy*® brand women’s activewear. On August 31, 2007, VF acquired Seven For All Mankind, LLC (“Seven For All Mankind”), marketer of the rapidly growing *7 For All Mankind*® brand of women’s and men’s premium denim jeanswear and related apparel products in the United States and Europe. The Lucy activewear business, with current revenues of approximately \$57 million, and Seven For All Mankind business, with current revenues of approximately \$300 million, formed the foundation for the new lifestyle brand-based Contemporary Brands Coalition. These acquisitions – together with the acquisitions earlier in the year of Eagle Creek, Inc. (“Eagle Creek”), substantially all the operating assets of Majestic Athletic, Inc. (“Majestic”) and specific brand-related assets of our former licensee of the *The North Face*® brand in China and Nepal – are collectively referred to as the “2007 Acquisitions.”
- In October 2007, the Board of Directors declared a quarterly cash dividend of \$0.58 per share, representing a \$0.03 per share increase in the quarterly dividend amount, payable in December 2007.

Discontinued Operations

In December 2006, management and the Board of Directors decided to exit the women’s intimate apparel business. VF entered into a definitive agreement on January 22, 2007 to sell all of its domestic and international women’s intimate apparel business units (formerly referred to as the Intimate Apparel Coalition, a reportable business segment). The transaction, which closed on April 1, 2007, is consistent with VF’s stated objective of focusing on lifestyle businesses having higher growth and profit potential. The results of operations and cash flows of the intimate apparel business are separately presented as discontinued operations for all periods in accordance with FASB Statement No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets* (“Statement 144”). Similarly, the assets and liabilities of this business have been reclassified and reported as held for sale for all periods presented. **Unless otherwise stated, the remaining sections of this discussion and analysis of financial condition and results of operations relate only to continuing operations.**

[Table of Contents](#)

We recorded a charge of \$42.2 million in 2006, computed in accordance with Statement 144, for the difference between the recorded book value of the intimate apparel business and the expected net sales proceeds. The impact of the \$42.2 million charge and a partial pension plan curtailment charge of \$5.6 million, less income tax benefit of \$10.9 million, resulted in an estimated loss on disposal of \$36.8 million (\$0.33 per share) in 2006. Included in the determination of the \$42.2 million impairment charge was a \$17.2 million unrealized gain on an investment in marketable securities of one of our intimate apparel suppliers.

The sales transaction excluded these marketable securities, which remained unsold at the end of the second quarter. Because the anticipated gain on these securities will not be recognized until sold, the loss on disposal was increased in the second quarter by the amount of the unrealized gain (\$17.2 million) included in the recorded 2006 impairment. Other adjustments to the loss on disposal in the second quarter included (i) income tax adjustments of the purchase price allocation and (ii) final determination of the sales price, resulting in increases to the loss on disposal of \$7.1 million.

Future changes to the loss on disposal may result from the sale of the marketable securities and the impact, if any, of settling retained liabilities, including those related to income taxes. All adjustments to the loss on disposal will be recorded when realized. Management intends to complete the sale of the marketable securities and settle all remaining liabilities by the end of 2007.

See Note D to the consolidated financial statements.

Analysis of Results of Continuing Operations

Consolidated Statements of Income

The following table presents a summary of the changes in our Total Revenues from 2006:

(In millions)	Third Quarter 2007 Compared with 2006	Nine Months 2007 Compared with 2006
Total revenues - 2006	\$ 1,810	\$ 4,617
Organic growth	163	441
Acquisitions in current year	92	181
Acquisition in prior year (to anniversary date)	8	25
Total revenues - 2007	<u>\$ 2,073</u>	<u>\$ 5,264</u>

The increase in Total Revenues in the third quarter and first nine months of 2007 was due primarily to organic revenue growth within the Outdoor and Jeanswear coalitions. The 2007 Acquisitions added revenues of \$92 million in the third quarter and \$181 million during the first nine months of 2007. In addition, the joint venture in India, formed in 2006, contributed an additional \$8 million in the 2007 quarter and \$25 million in the nine month period of 2007. Additional details on revenues are provided in the section titled "Information by Business Segment."

In 2006, 26% of Total Revenues were in international markets. In translating foreign currencies into the U.S. dollar, a weaker U.S. dollar in relation to the functional currencies where VF conducts the majority of its international business (primarily the European euro countries) positively impacted revenue comparisons by \$36 million in the third quarter of 2007 and \$92 million in the first nine months of 2007, compared with the 2006 periods. The average translation rate for the euro was \$1.36 per euro during the first nine months of 2007, compared with \$1.24 during the first nine months of 2006. The U.S. dollar has continued to weaken in recent months, resulting in a translation rate of \$1.41 per euro at the end of September 2007. If the currency

[Table of Contents](#)

translation rates were to remain at current levels, reported revenues for the remainder of 2007 would also be positively affected when compared with 2006.

The following table presents the percentage relationship to Total Revenues for components of our Consolidated Statements of Income:

	Three Months Ended September		Nine Months Ended September	
	2007	2006	2007	2006
Gross margin (total revenues less cost of goods sold)	43.9%	43.8%	43.5%	43.5%
Marketing, administrative and general expenses	27.9%	27.9%	29.9%	30.1%
Operating income	16.0%	15.9%	13.6%	13.4%

Gross margin as a percentage of Total Revenues for the third quarter of 2007 increased 0.1% from the prior year quarter to 43.9%, with an improvement of 0.3% due to the changing mix of our businesses resulting from revenue growth in our higher margin Outdoor businesses, partially offset by a 0.2% impact from an accounting reclassification of certain expenses previously classified in Marketing, Administrative and General. For the nine months, an improvement of 0.2% in margins earned was offset by the impact of the accounting reclassification.

Marketing, Administrative and General Expenses as a percentage of Total Revenues was 27.9% for both quarterly periods. The 2007 quarter's percentage comparison benefited by 0.2% from the accounting reclassification discussed above as well as reduced distribution and other investment spending as a percentage of sales, as compared with the 2006 quarter. These benefits were offset by higher expense relationships in the 2007 quarter from the impact of acquisitions, including amortization of intangible assets, and the changing mix of our businesses toward those with higher expense percentages, specifically our growing Outdoor businesses. The lower percentage relationship in the nine month period resulted from the inclusion of the net gain on the sale of *H.I.S* trademarks and related intellectual property in the second quarter of 2007 and the impact of the accounting reclassification discussed above, offset in part by higher percentages resulting from the changing mix of our businesses.

Interest income increased \$3.3 million in the first nine months of 2007 due to an increase in interest rates and higher cash levels resulting primarily from the proceeds of the sale of the global intimate apparel business received in April 2007. Interest expense increased \$3.5 million in the third quarter and \$4.0 million in the first nine months of 2007, reflecting higher borrowings and interest rates on short-term debt. The weighted average interest rate on outstanding debt increased to 6.4% for the first nine months of 2007 from 6.0% for the comparable period of 2006. Average interest-bearing debt outstanding totaled \$922 million for the first nine months of 2007 and \$910 million for the comparable period of 2006.

The effective income tax rate was 33.9% for the first nine months of 2007 and 32.8% for the comparable period in 2006. The prior year rate included the favorable impact from tax audit settlements and utilization of accumulated net operating losses in foreign jurisdictions. The effective income tax rate for the first nine months of 2007 was based on the expected annual rate of approximately 34% for the full year, adjusted for discrete events arising during the respective periods.

Income from Continuing Operations increased 13% to \$209.3 million from \$186.0 million in the third quarter of 2006. Earnings per share from continuing operations also increased 13% to \$1.86 from \$1.64 in the prior year quarter. In the first nine months of 2007, Income from Continuing Operations increased 14%

[Table of Contents](#)

to \$449.2 million, compared with \$393.7 million in the prior year period, with earnings per share increasing 13% to \$3.96 from \$3.49. The lower percentage increase in earnings per share, versus Income from Continuing Operations, in the nine months reflected the effect of higher diluted shares outstanding in the 2007 period resulting from a higher level of stock option exercises and a higher dilutive impact from stock-based compensation. In addition, in translating foreign currencies into the U.S. dollar, there was a \$0.05 favorable impact on earnings per share in the 2007 quarter and an \$0.11 favorable impact on earnings per share in the 2007 nine months, compared with the prior year periods.

Including discontinued operations, we reported net income of \$207.2 million for the third quarter of 2007, a 5% increase over the 2006 quarter, and net income of \$427.2 million for the first nine months of 2007, a 1% increase over the prior year period.

Information by Business Segment

VF's businesses are grouped into five product categories, and by brands within those product categories, for management and internal financial reporting purposes. These groupings of businesses within VF are referred to as "coalitions." These coalitions represent VF's reportable business segments.

See Note I to the Consolidated Financial Statements for a summary of our results of operations by coalition, along with a reconciliation of Coalition Profit to Income from Continuing Operations Before Income Taxes.

The following tables present a summary of the changes in our Total Revenues by coalition for the third quarter and first nine months of 2007:

(In millions)	Third Quarter					
	Jeanswear	Outdoor	Imagewear	Sportswear	Contemporary Brands	Other
Revenues - 2006	\$ 738	\$ 659	\$ 216	\$ 184	\$ —	\$ 13
Organic growth	12	132	7	(11)	—	23
Acquisitions in current year	—	15	44	—	33	—
Acquisition in prior year	8	—	—	—	—	—
Revenues - 2007	\$ 758	\$ 806	\$ 267	\$ 173	\$ 33	\$ 36

(In millions)	Nine Months					
	Jeanswear	Outdoor	Imagewear	Sportswear	Contemporary Brands	Other
Revenues - 2006	\$ 2,080	\$ 1,416	\$ 598	\$ 488	\$ —	\$ 35
Organic growth	70	343	(3)	(13)	—	43
Acquisitions in current year	—	33	116	—	33	—
Acquisition in prior year	25	—	—	—	—	—
Revenues - 2007	\$ 2,175	\$ 1,792	\$ 711	\$ 475	\$ 33	\$ 78

Jeanswear:

Jeanswear Coalition revenues increased 3% in the quarter, driven by a 13% increase in the international businesses. The increase in international businesses was led by strong performance of our *Lee* and

[Table of Contents](#)

Wrangler® brands in Europe, growth in excess of 40% from our jeans businesses in China and healthy revenue gains in Canada, Mexico and Russia. Domestic jeanswear revenues declined slightly in the quarter, reflecting softer retail market conditions and a warmer weather start to the fall season impacting early sales of seasonal products. For the nine month period ended September 2007, Jeanswear Coalition revenues increased 5%, with international revenues increasing 14% while domestic revenues were flat. The joint venture in India contributed \$8 million to revenues in the third quarter of 2007 (prior to the anniversary date of its August 2006 acquisition) and \$25 million in the first nine months of 2007. Foreign currency translation also positively impacted 2007 revenues by \$15 million, or 2%, in the quarter and by \$40 million, or 2%, in the nine month period.

Jeanswear Coalition Profit increased 15% in the third quarter of 2007, with operating margins increasing to 17.9% from 16.0% in the third quarter of 2006. The operating margin improvement in the quarter was attributed primarily to higher gross margins resulting from (i) growth in our international jeans businesses, where margins are higher than domestic businesses, (ii) improved operating efficiencies and (iii) actions taken in the prior year to reduce product cost and improve product development capabilities. Operating margins increased to 16.9% in the first nine months of 2007 from 15.8% in the prior year period. Approximately 0.4% of the improvement in the nine month period was driven by the net gain on the sale of *H.I.S.*® trademarks and related intellectual property in the second quarter of 2007. Operating margins in the nine month period of 2007 also benefited from growth in our international jeans businesses.

Outdoor:

Revenues in our Outdoor businesses increased 22% in the third quarter of 2007 and 27% in the nine month period, compared with the prior year periods. Organic revenue growth was 20% in the third quarter of 2007 and 24% in the nine month period, consisting of strong global unit volume gains in *The North Face*®, *Vans*®, *Kipling*® and *Napapijri*® brands. The acquisitions of Eagle Creek and specific brand-related assets of a former licensee of the *The North Face*® brand in China and Nepal added \$15 million to revenues in the quarter and \$33 million in the nine month period. Foreign currency translation positively impacted 2007 revenues by \$21 million, or 3%, in the quarter and \$52 million, or 4%, in the first six months.

Operating margins remained as the highest within VF, but declined in the quarter to 20.0% from 21.2% resulting from lower gross margins related to the sale of distressed inventory. Operating margins for the nine months ended September 2007 increased to 16.6% from 16.4% in the prior year period due to the stronger revenue growth in our international operations where operating margins are higher and the benefit of strong revenue growth resulting in improved leverage of certain operating expenses.

Imagewear:

Coalition Revenues increased 24% in the third quarter of 2007 and 19% for the nine month period primarily due to the *Majestic* acquisition, which added \$44 million in the quarter and \$116 million in the nine month period. Organic growth of 4% in the third quarter was driven by a 12% increase in licensed sports apparel sales due to a strong start to the National Football League season and strong Major League Baseball playoff business.

Operating margins were flat compared with the prior year quarter. Operating margins of the organic Imagewear businesses improved 0.8%, driven by reduced administrative spending as a percentage of sales. Offsetting this improvement was the higher selling, general and administrative expense relationships of the newly acquired *Majestic*® brand. Operating margins declined to 13.8% from 15.5% for the nine month period, resulting from business and product mix changes, compared with very strong operating results in the prior year period.

Sportswear:

Coalition Revenues declined 6% in the quarter and were 3% lower for the nine month period of 2007,

[Table of Contents](#)

compared with the prior year. Revenues in our *Nautica*® brand sportswear business declined 10% in the quarter and 6% for the nine month period of 2007 due primarily to a shift in allowed shipping dates from most of the brand's department store customers and overall weakness in the department store channel of distribution. Our *Kipling*® and *John Varvatos*® businesses experienced double-digit gains in revenues in both periods.

Operating margins declined to 9.9% from 13.5% in the prior year quarter and to 9.7% from 13.0% for the nine month period due to the impact of revenue decreases in the *Nautica*® brand without comparable expense reduction and increased promotional and administrative spending. We expect more favorable comparisons in the fourth quarter, with revenues and operating margins more consistent with prior year levels.

Contemporary Brands:

From the dates of acquisition of the Seven For All Mankind and Lucy activewear businesses, revenues totaled \$32.7 million and operating income totaled \$4.9 million, with profits resulting from the Seven For All Mankind business.

Other:

The Other business segment consists of our VF Outlet business. VF Outlet's retail sales and profit of non-VF products are reported in this business segment, while VF Outlet's retail sales and profit of VF products are reported as part of the operating results of the respective coalitions. Prior to the second quarter of 2007, VF Outlet's sales of intimate apparel products were reported as part of VF's former Intimate Apparel Coalition, now presented as discontinued operations. Since the sale, VF Outlet is purchasing intimate apparel products primarily from the formerly owned intimate apparel business on an arms-length negotiated basis. These revenues are reported in the Other business segment. The sale agreement of the intimate apparel business did not include any product purchase commitments.

Reconciliation of Coalition Profit to Income before Income Taxes:

There are two types of costs necessary to reconcile total Coalition Profit, as discussed in the preceding paragraphs, to Income from Continuing Operations Before Income Taxes. These costs are (i) Corporate and Other Expenses, discussed below, and (ii) Interest, Net, which was discussed in the previous "Consolidated Statements of Income" section.

Corporate and Other Expenses consist of corporate headquarters expenses that are not allocated to the coalitions and other expenses related to but not allocated to the coalitions for internal management reporting, including development costs for management information systems, costs of maintaining and enforcing VF's trademarks and miscellaneous consolidating adjustments. Also included in these expenses are costs of transition services for VF's intimate apparel business sold in April 2007, net of related reimbursements.

Analysis of Financial Condition

Balance Sheets

Accounts Receivable increased 17% at September 2007 over September 2006, while there was a 14% increase in wholesale revenues in the third quarter. The third quarter revenue increase included a 20% increase over the prior year's quarter in our European businesses, where payment terms are substantially longer than those of our U.S. businesses. In addition, sales also increased significantly in our domestic outdoor businesses, where payment terms are somewhat longer than the overall average for VF. The balance at September 2007 also included accounts receivable for Seven For All Mankind existing at its August 31, 2007 acquisition date that had not yet been collected. Receivables are higher at the end of September 2007 than at the end of 2006 due to seasonal sales patterns.

Table of Contents

Inventories at September 2007 increased 25% over the prior year due primarily to an expected 18% growth in revenues in the fourth quarter of 2007. The increase was also impacted by the recent acquisitions, where days of inventory on hand in the earlier periods of VF ownership are higher than the overall VF average. In addition, days in Outdoor Coalition inventories have been increased to better service our customers, and Sportswear Coalition inventory levels exceeded prior year levels due to lower shipments. Inventory levels at September 2007 increased over December 2006 due to higher seasonal requirements of our businesses, the impact of recent acquisitions and the increase in Outdoor Coalition inventories discussed above.

Property, Plant and Equipment increased at September 2007 over September 2006 due to the impact of the 2007 Acquisitions and because capital spending, including investments in new retail stores and distribution centers, exceeded depreciation expense.

Intangible Assets and Goodwill increased as a result of the 2007 Acquisitions and foreign currency translation. See Notes E and F to the Consolidated Financial Statements.

Other Assets declined since September 2006 due to the elimination of an intangible asset recognized under previous pension accounting rules (see Notes B and H to the Consolidated Financial Statements), offset in part since December 2006 by an increase in assets held under deferred compensation plans.

In August 2007, VF entered into a \$400.0 million bridge loan facility with two banks in conjunction with the acquisitions of Seven For All Mankind and Lucy activewear. Short-term Borrowings at September 2007 consisted of (i) \$350.0 million outstanding under the bridge loan facility, (ii) \$667.7 million of domestic commercial paper borrowings and (iii) \$35.3 million of international borrowings. Short-term borrowings at September 2007 were significantly higher than normal levels due to the acquisitions of Seven For All Mankind and Lucy activewear in August 2007 for a net cash consideration of \$873.2 million. On October 15, 2007, VF issued \$600.0 million of senior notes (see Note O to the Consolidated Financial Statements). Proceeds of \$592.0 million were used to repay amounts outstanding under the bridge loan facility and commercial paper. Accordingly, that amount of Short-term Borrowings was reclassified to Long-term Debt. The bridge loan facility, after the repayment, was cancelled. Overall, the extent of short-term borrowings varies throughout the year in relation to changes in working capital requirements and other investing and financing needs.

Accounts Payable at September 2007 increased over December 2006 and September 2006 due primarily to increased inventory levels discussed above and the impact of the 2007 Acquisitions.

Accrued Liabilities increased at September 2007 from December 2006 due to (i) an increase in accrued income taxes resulting from higher profitability and timing of tax payments, (ii) the impact of the 2007 Acquisitions and (iii) seasonal increases and growth-related factors in our businesses. The increase of the September 2007 balance over the September 2006 balance was due to higher accrued income taxes, the impact of the 2007 Acquisitions and growth-related factors in our businesses.

Total Long-term Debt at September 2007, including the current portion, increased from the level at September 2006 due to the long-term classification of \$592.0 million of Short-term Borrowings used to finance the Seven For All Mankind and Lucy activewear acquisitions. See Note O to the Consolidated Financial Statements. Long-term Debt at September 2007 also included \$11.2 million assumed in the August acquisition of Seven For All Mankind. The Current Portion of Long-term Debt at September 2007 included a \$63.4 million U.S. dollar equivalent borrowed under the international bank credit agreement.

Other Liabilities declined since September 2006 due primarily to changes in the recognition of defined benefit pension liabilities (see Notes B and H to the Consolidated Financial Statements). This decline was

Table of Contents

offset in part by an increase in deferred compensation liabilities and the Majestic earnout liability (see Note C to the Consolidated Financial Statements), which also contributed to the increase in Other Liabilities from December 2006 to September 2007.

Liquidity and Cash Flows

The financial condition of VF is reflected in the following:

(Dollars in millions)	September 2007	December 2006	September 2006
Working capital	\$1,431.7	\$1,563.2	\$1,519.7
Current ratio	1.9 to 1	2.5 to 1	2.2 to 1
Debt to total capital ratio	33.7%	19.5%	24.3%

For the ratio of debt to total capital, debt is defined as short-term and long-term borrowings, and total capital is defined as debt plus common stockholders' equity.

On an annual basis, VF's primary source of liquidity is its strong cash flow provided by operating activities. Cash provided by operating activities is primarily dependent on the level of net income and changes in investments in inventories and other working capital components. Our cash flow from operations is typically low in the first six months of the year as we build working capital to service our operations for the balance of the year. Cash provided by operating activities is substantially higher in the fourth quarter of the year due to the high collection of accounts receivable during that quarter and overall lower working capital requirements. For the nine months through September 2007, cash provided by operating activities of continuing operations was \$165.8 million, compared with cash used by operating activities of \$0.2 million in the comparable 2006 period. The 2006 period included a \$75.0 million pension plan contribution that did not recur in 2007. In addition, net changes in operating assets and liabilities resulted in a usage of funds of \$430.8 million for the nine months ended September 2007, compared with a higher usage of funds of \$484.7 million for the period ended September 2006. See the Balance Sheets section above for a discussion of significant changes in operating assets and liabilities.

During the first nine months of 2007, cash used by discontinued operations was \$13.2 million, compared with cash provided of \$23.4 million in the prior year period. The use of funds in 2007 was due to the seasonal build in working capital during the first quarter of 2007, which is the only period that VF owned the intimate apparel businesses during 2007.

In addition to cash provided by operating activities, VF has significant liquidity based on its available debt capacity supported by its strong credit rating. At the end of September 2007, VF had a \$750.0 million unsecured committed bank facility that was available for general corporate needs as well as supporting commercial paper borrowings. Any issuance of commercial paper reduces the amount available under the bank facility. At the end of September 2007, \$72.2 million was available for borrowing under the credit agreement. Commercial paper outstanding and supported by the facility was \$667.7 million at September 2007. Also, \$10.1 million of standby letters of credit were issued under the agreement.

In August 2007, VF entered into a \$400.0 million bank bridge loan facility. At September 2007, \$350.0 million was outstanding under this facility to support the financing needs of the Seven For All Mankind and Lucy activewear acquisitions. In October 2007, borrowings under the bridge loan facility were repaid with proceeds from the issuance of \$600.0 million in long-term unsecured notes (registered under the Securities

Table of Contents

Act pursuant to a Registration Statement on Form S-3), and the bridge loan facility was cancelled. The remainder of the proceeds of the debt issue was used to repay commercial paper borrowings.

In addition, VF also had a \$246.6 million U.S. dollar equivalent unsecured committed revolving credit facility under an international bank credit agreement. At the end of September 2007, a U.S. dollar equivalent of \$133.9 million was available for borrowing under the agreement, with \$112.7 million outstanding.

In October 2007, VF entered into a five year \$1.0 billion unsecured committed bank facility, which replaced the previously mentioned \$750.0 million bank facility. Also in October 2007, VF entered into a five year €250 million (\$357.1 million U.S. dollar equivalent) unsecured committed revolving credit facility under an international bank credit agreement, which replaced the previously mentioned international bank credit agreement. See Note O to the Consolidated Financial Statements.

The principal investing activities in the first nine months of 2007 included total cash payments of \$1,054.5 million for business acquisitions and \$79.1 million for capital expenditures, offset by the receipt of \$348.7 million of net proceeds from the sale of our intimate apparel businesses. Capital spending was comparable with the prior year period, with spending primarily related to retail and distribution investments. We expect that capital spending could reach \$140 million for the full year of 2007, which will be funded by operating cash flows.

During the first nine months of 2007, VF purchased 4.1 million shares of its Common Stock in open market transactions at a cost of \$350.0 million (average price of \$85.03 per share) and in the first nine months of 2006 purchased 2.0 million shares at a cost of \$118.6 million (average price of \$59.29 per share). Share repurchase activity during the first nine months of 2007 reduced the total approved repurchase authorization to 5.2 million shares as of the end of September 2007. The long-term objective of our share repurchase program is to reduce the impact of dilution caused by the issuance of stock under stock compensation programs. The 4.1 million shares purchased in the first nine months of 2007 was related to our plan to use the proceeds from the sale of our intimate apparel businesses to repurchase shares. Management will evaluate future share repurchases from time-to-time depending on our common stock share price, stock option exercises and funding required to support business acquisitions and other opportunities.

The Board of Directors increased the quarterly dividend rate by 90%, from \$0.29 to \$0.55 per share, starting with the dividend paid in June 2006. The higher quarterly dividend rate in 2007, compared with 2006, resulted in a \$28.1 million increased usage of funds in the first nine months of 2007 over the comparable period in the prior year. In October 2007, the Board of Directors declared a quarterly cash dividend of \$0.58 per share, representing a \$0.03 per share increase in the quarterly dividend amount, payable in December 2007.

In October 2007, Standard & Poor's Ratings Services affirmed its 'A minus' corporate credit rating, 'A-2' commercial paper rating and 'stable' outlook for VF. Standard & Poor's also assigned its 'A minus' senior unsecured debt rating to VF's \$600.0 million unsecured senior notes issued in October 2007. In August 2007, Moody's Investors Service affirmed VF's long-term debt rating of 'A3', commercial paper rating of 'Prime-2' and 'stable' outlook. Existing long-term debt agreements do not contain acceleration of maturity clauses based solely on changes in credit ratings. However, for the \$600.0 million of senior notes, if there were a change in control of VF and, as a result of the change in control, the notes were rated below investment grade by recognized rating agencies, then VF would be obligated to repurchase the notes at 101% of the aggregate principal amount of notes repurchased, plus any accrued and unpaid interest.

Management's Discussion and Analysis in our 2006 Form 10-K provided a table summarizing VF's contractual obligations and commercial commitments at the end of 2006 that would require the use of funds. Since the filing of our 2006 Form 10-K, there have been no material changes, except as noted below, relating

[Table of Contents](#)

to VF's contractual obligations that require the use of funds or other financial commitments that may require the use of funds:

- Minimum royalty and related advertising obligations increased by approximately \$440 million from the 2006 year-end primarily due to commitments in our 2007 Acquisitions.
- In October 2007, VF issued \$250.0 million of notes due in 2017 and \$350.0 million of notes due in 2037. Required principal and interest payments on this new debt aggregate \$1,426.0 million over the terms of these notes, with interest payments of \$37.5 million in each of 2008 through 2011.

Management believes that VF's cash balances and funds provided by operating activities, as well as unused committed bank credit lines, additional borrowing capacity and access to equity markets, taken as a whole, provide (i) adequate liquidity to meet all of its current and long-term obligations when due, (ii) adequate liquidity to fund capital expenditures and to maintain our dividend payout policy and (iii) flexibility to meet investment opportunities that may arise.

VF does not participate in transactions with unconsolidated entities or financial partnerships established to facilitate off-balance sheet arrangements or other limited purposes.

Critical Accounting Policies and Estimates

We have chosen accounting policies that we believe are appropriate to accurately and fairly report VF's operating results and financial position in conformity with accounting principles generally accepted in the United States of America. We apply these accounting policies in a consistent manner. Our significant accounting policies are summarized in Note A to the Consolidated Financial Statements included in our 2006 Form 10-K.

The application of these accounting policies requires that we make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures. These estimates and assumptions are based on historical and other factors believed to be reasonable under the circumstances. We evaluate these estimates and assumptions on an ongoing basis and may retain outside consultants to assist in our evaluation. If actual results ultimately differ from previous estimates, the revisions are included in results of operations in the period in which the actual amounts become known. The accounting policies that involve the most significant management judgments and estimates used in preparation of our consolidated financial statements, or are the most sensitive to change from outside factors, are discussed in Management's Discussion and Analysis in our 2006 Form 10-K. There have been no material changes in these policies, except for those mentioned in Note B to the Consolidated Financial Statements.

Cautionary Statement on Forward-Looking Statements

From time to time, we may make oral or written statements, including statements in this Quarterly Report that constitute "forward-looking statements" within the meaning of the federal securities laws. These include statements concerning plans, objectives, projections and expectations relating to VF's operations or economic performance, and assumptions related thereto.

Forward-looking statements are made based on our expectations and beliefs concerning future events impacting VF and therefore involve a number of risks and uncertainties. We caution that forward-looking statements are not guarantees and actual results could differ materially from those expressed or implied in the forward-looking statements.

Potential risks and uncertainties that could cause the actual results of operations or financial condition of VF to differ materially from those expressed or implied by forward-looking statements in this Quarterly Report on Form 10-Q include VF's reliance on a small number of large customers; the financial strength of VF's

Table of Contents

customers; changing fashion trends and consumer demand; VF's ability to implement its growth strategy; VF's ability to successfully integrate and grow acquisitions; VF's ability to maintain information technology systems; stability of VF's manufacturing facilities and foreign suppliers; continued use by VF's suppliers of ethical business practices; VF's ability to accurately forecast demand for products; continuity of members of VF's management; VF's ability to protect trademarks and other intellectual property rights; maintenance by VF's licensees and distributors of the value of VF's brands; the overall level of consumer spending; general economic conditions and other factors affecting consumer confidence; fluctuations in the price, availability and quality of raw materials and contracted products; foreign currency fluctuations; and legal, regulatory, political and economic risks in international markets. More information on potential factors that could affect VF's financial results is included from time to time in VF's public reports filed with the Securities and Exchange Commission, including VF's Annual Report on Form 10-K.

Item 3 – Quantitative and Qualitative Disclosures about Market Risk

There have been no significant changes in VF's market risk exposures from what was disclosed in Item 7A in our 2006 Form 10-K.

Item 4 – Controls and Procedures

Disclosure controls and procedures:

Under the supervision of our Chief Executive Officer and Chief Financial Officer, a Disclosure Committee comprising various members of management has evaluated the effectiveness of the disclosure controls and procedures at VF and its subsidiaries as of the end of the period covered by this Quarterly Report (the "Evaluation Date"). Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded as of the Evaluation Date that such controls and procedures were effective.

Changes in internal control over financial reporting:

There have been no changes during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, VF's internal control over financial reporting.

Part II – Other Information

Item 1A – Risk Factors

There have been no material changes to our risk factors from those disclosed in our 2006 Form 10-K.

Item 2 – Unregistered Sales of Equity Securities and Use of Proceeds

(c) Issuer purchases of equity securities:

[Table of Contents](#)

Fiscal Period	Total Number of Shares Purchased	Weighted Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (1)
July 1 - July 28, 2007	—	\$ —	—	5,204,000
July 29 - August 25, 2007	—	—	—	5,204,000
August 26 - September 29, 2007	—	—	—	5,204,000
Total	—	—	—	—

- (1) Management will evaluate future share repurchases from time-to-time depending on stock option exercises and funding required to support business acquisitions and other opportunities. Also, under the Mid-Term Incentive Plan implemented under VF's 1996 Stock Compensation Plan, VF must withhold shares of issuable Common Stock in settlement of a participant's performance restricted stock units. The number of shares to withhold is based on the aggregate fair market value equal to any federal, state and local withholding or other tax that VF is required to withhold, unless the participant has made other arrangements to pay such amounts. There were no shares withheld under the Mid-Term Incentive Plan during the third quarter of 2007.

Item 6 – Exhibits

- 31.1 Certification of the principal executive officer, Mackey J. McDonald, pursuant to 15 U.S.C. Section 10A, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Certification of the principal financial officer, Robert K. Shearer, pursuant to 15 U.S.C. Section 10A, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 32.1 Certification of the principal executive officer, Mackey J. McDonald, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 32.2 Certification of the principal financial officer, Robert K. Shearer, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

**CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER
PURSUANT TO 15 U.S.C. SECTION 10A, AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Mackey J. McDonald, certify that:

1. I have reviewed this quarterly report on Form 10-Q of V.F. Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors:
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
